

3rd Biennial Conference of HIV Medicine Association of India

Working Together to End AIDS

November 8 - 9, 2014
India International Centre, New Delhi

Academic partner : British HIV Association (BHIVA)

Dear Colleagues

It is with great pleasure we invite you to join the 3rd Biennial Conference of HIV Medicine Association of India. We have decided to organize this conference meeting every alternate year to ensure optimal use of resources and bring more novelty and value to the content. In between these conferences we continue to organize focused workshops, monothematic symposiums, advanced courses and participate in sessions within other national and regional meetings.

Antiretroviral therapy (ART) has dramatically altered the clinical course of Human Immunodeficiency Virus (HIV) infection. However, we are now confronted with other issues relating to ageing as patients live longer on stable ART. It is critical to understand these problems and discuss optimal strategies for their monitoring and management in the Indian context.

Emerging scientific evidence for an expanded role of using ART for prevention of HIV transmission is compelling. However we are unsure about how to translate this evidence into practice, both at the clinic and program level. We need to debate on these aspects and try to develop strategies of incorporating these advances into practice in India. Working together on implementing comprehensive prevention may end the AIDS epidemic in this country.

We have developed a conference program to update and debate upon these issues and provide you an opportunity to upgrade your skills for management of people living with HIV in the clinic. Apart from plenary and didactic lectures, we have incorporated interactive clinical case discussions and debates into the 2 day program. We also invite researchers (and especially post graduates) to submit their abstracts for presentation at the meeting.

Finally we are grateful to our faculty both national and international and the British HIV Association (BHIVA) for associating with us. We hope you are able to join us in November for a productive meeting.

HIV Medicine Association of India

SCIENTIFIC PROGRAM HIGHLIGHTS

The Scientific Program includes Plenaries, Updates, Debates and Interactive case-discussions

Focus Areas

- **Antiretroviral treatment**
- **Antiretroviral resistance and sequencing regimens**
- **Treatment as Prevention**
- **HIV and co-infections**
- **HIV and co-morbidities**
- **Emerging Non-Communicable Diseases amongst People Living with HIV**
- **HIV Cure**

Updated & detailed program will be uploaded on website - www.hivmai.org and www.conferenceindia.org

FACULTY

INTERNATIONAL

Sanjay Bhagani

Consultant Physician in Infectious Diseases/HIV Medicine
Honorary Senior Lecturer in Infectious Diseases
Royal Free London NHS Foundation Trust and UCL, London

Mark Boyd

The Kirby Institute for Infection and Immunity in Society, UNSW Australia
The Albion Centre and Holdsworth House Medical Practice, Sydney, NSW Australia

Roy M. Gulick

Professor of Medicine
Chief, Division of Infectious Diseases
Weill Medical College of Cornell University, New York

Mark Nelson

Consultant Physician
Chelsea and Westminster Hospital
London
St Stephens AIDS Trust, London

Kulasekaram Ranjababu

St Thomas Hospital, London

Melanie Thompson

Principal Investigator, AIDS Research Consortium of Atlanta, Atlanta

NATIONAL

Milind Bhrushundi

Central India Institute of Infectious Diseases, Nagpur

Aruna Dhir

Tata Memorial Hospital, Mumbai

N Kumarasamy

YRG care, Chennai

Vidya Mave

B.J. Medical College Clinical Trials Unit, Pune

Nalin Nag

Apollo Hospitals, New Delhi

Atul Patel

Vedanta Institute of Medical Sciences, Ahmedabad

Sanjay Pujari

Institute of Infectious Diseases, Pune

BB Rewari

National AIDS Control Organization, New Delhi

K Satish

Wockhardt Hospitals, Bengaluru

Rajiv Soman

Hinduja Hospital, Mumbai

Jehangir Sorabjee

Bombay Hospital, Mumbai

Temmy Sunyoto

Médecins Sans Frontières, New Delhi

Soumya Swaminathan

National Institute for Research in Tuberculosis, Chennai
