Theme
Wound management - A Holistic Approach

Venue

Main Auditorium, PGIMER and Dr. RML Hospital, New Delhi

Department of Burns, Plastic, Maxillofacial and Microvascular Surgery,
PGIMER & Dr. RML Hospital, New Delhi

www.woundcarecon2011.com

Dear Friends,

Welcome to Delhi!

It is indeed our pleasure to invite you to the 5th Annual National Conference of Society for Wound Care & Research -Wound Care Con 2011, to be held from 11–13th November, 2011 at PGIMER & Dr.RML Hospital, New Delhi.

Wounds are there since the beginning of life on earth and have remained an enigma since then. Man realised the challenges of a non healing wound only when he faced a wound infected, fungated or remained raw inspite of conventional wisdom and scientific knowledge.

Recent advances in prevention and cure of bed sores like low air loss bed, optimum humidification, topical dressings preventing evaporative loss and negative pressure dressing however do provide some insight in the process of wound healing. At other end, plethora of pharmacological agents which affect wound healing, different growth factors, antimicrobial agents, oxygen delivery techniques, hyperbaric oxygen and the most recent but less understood stem cell therapy has generated great interest in understanding and supporting wound healing. However wound management still remains an area of great confusion and debate.

In keeping with the theme of the conference “Wound Management –A Holistic Approach” we will discuss and update all aspects of wound healing with special emphasis on “STEM CELL and CELL MODULATION”. First day of conference is dedicated to practical aspect –a workshop to show different procedures for wound management including stem cell harvesting and transfer techniques.. Subsequently on the next two days a comprehensive scientific program has been designed covering all aspects of wound care.

We promise you an unforgettable experience of brainstorming sessions complimented with the finest cultural and culinary delights of Delhi.

Looking forward to see you in Delhi during the conference.

Dr. S. P. Bajaj
President-SWCR 2011

Dr. L.K. Makhija
Chairman Wound
Care Con 2011

Dr. P.S. Bhandari

ABOUT DELHI

Delhi is a palimpsest, bearing the complexities, the contradictions, the beauty and the dynamism of a city where the past co-exists with the present. Delhi has a long and chequered past. Few cities in the World can claim the long continuity and status that Delhi has enjoyed. Its history goes a long way off to the time of Mahabharata as Indraprastha, the capital of Pandavas. Among the dynasties that laid claim to Delhi were the Tomar Rajputs (9th or 10th century) and the Chauhan Rajputs (12th century). With the defeat of Prithviraj, the Chauhan leader, in the hands of the Muslims towards the end of the 12th century, Delhi became the capital of Pathan Sultans and eventually of the Mughals. During the British rule for 200 years, the country came under unified control, Calcutta became the capital but only to move back to Delhi in 1911. Since then Delhi has retained its position as the seat of governance.

Delhi abounds in relics and remains a glorious reminder of its past. The city measures to 1485 sq km, harbouring over 12 million people of diverse cultures. Today Delhi is not only a modern metro with world class mass transport system and infrastructure but also has the continuing distinction of being the most green capital city in the world.

Delhi is India's melting pot, dream and has absorbed, over the centuries, settlers, and visitors from across the globe. Exploring the city can be a fascinating and rewarding experience.

About Venue: PGIMER & Dr. Ram Manohar Lohia (RML) Hospital, New Delhi

Dr. Ram Manohar Lohia Hospital, formerly known as Willingdon Hospital, was established by the British empire. In 1954, its control was again transferred to the Central Government of Independent India. The hospital has grown over the years and is currently having about 984 beds, spread over in 30 acres of land. It caters to the population of New Delhi and Central District, apart from patients from other areas and even from outside Delhi. It is having 71 beds in a Nursing Home for the C.G.H.S beneficiaries including Maternity Nursing Home. The hospital has all the medical and surgical super speciality departments. This hospital has round the clock emergency services.

The institution rose to a new high when it was upgraded to Post Graduate Institute of Medical Education and Research in 2005.
